

Here's a helpful checklist to get your dog prepared for boarding:

- ✓ **Food information:** Provide the food so your dog doesn't get stomach upset by switching foods when he's already a little stressed. Give exact measurements (1/3 cup) and times when your dog should be fed.
- ✓ **Treats:** Provide treats. Explain how many the Attendants can give and under what circumstances.
- ✓ **Medications:** Prep them ahead of time to make it easier on the Attendants and give specific instructions. Try putting the meds for each day in a baggie labeled for that day.
- ✓ **Note any food behavior/medical issues:** Does your dog steal other dogs' food, does he gulp his food down too quickly, does he have a sensitive stomach? Does your dog not like thunder?
- ✓ **Water:** Does your dog drink only filtered water? Does he/she drink a lot of water and needs two bowls?
- ✓ **Explain all behavioral issues:** Does your dog have trouble warming up to new people? Is your dog startled by loud noises? Does your dog mark in unfamiliar places? Can your dog nip if anxious? What is your dog's play style?
- ✓ **Sleeping:** Bring along your dog's bed/blanket, or other familiar item from home, and explain your dog's typical sleep routine.
- ✓ **Ask us to send photos** to let you know how your pets are doing.
- ✓ **Dog gear:** Make a list of his/her gear, so you remember what to bring and we remember what to give back to you.
- ✓ **Information:** Provide us a copy of vaccinations, your veterinarian's information, and emergency contact and all contact information for you.
